THE INNOVATION EXPERIENCE

CONVENIENT WORKSPACE

Whether you require a ready-to-use office, a coworking space, a fully equipped lab or innovative meeting rooms, we give you peace of mind – because everything simply works. You and your team can start working from day one and concentrate on your most important tasks while we take care of everything else.

COMMUNITY

When joining us as a resident, you are given access to an immense and diverse community of great minds. The invaluable power of a tight-knit community will support you on your journey to success.

STARTUP SUPPORT

We offer a broad range of services to help you grow your company. These include seminars, workshops, acceleration programs, venture mentoring and networking events.

OUR STORY

The Switzerland Innovation Park Basel Area acts as a catalyst for innovation and progress. We give you access to infrastructure, services and our community of great minds, allowing you to focus on inventing, researching and shaping your future.

At our four sites in Allschwil, Basel, the Novartis Campus and Jura, the Innovation Park connects, supports and engages people with ideas and passion in the areas of biotech, medtech, digital health, healthtech and industrial transformation.

As a resident, you receive access to convenient workspaces and state-of-the-art infrastructure, and benefit from a community and startup support services to guide and assist you on your journey to success.

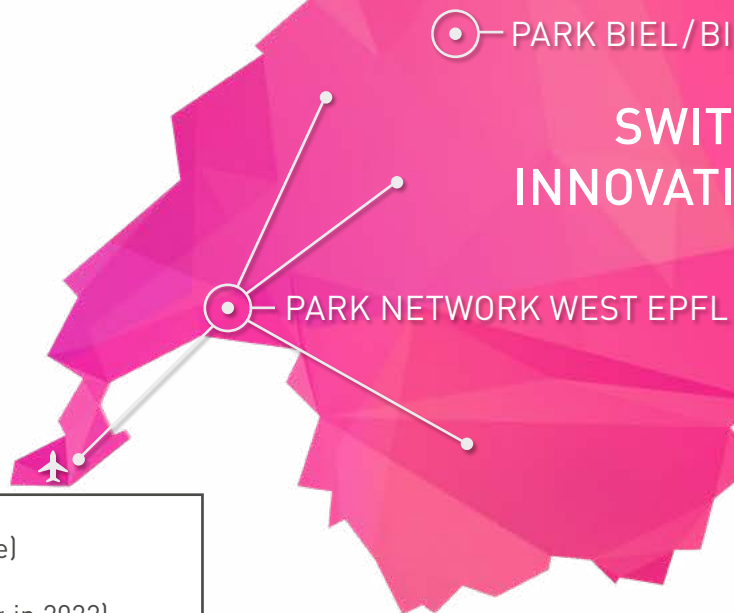

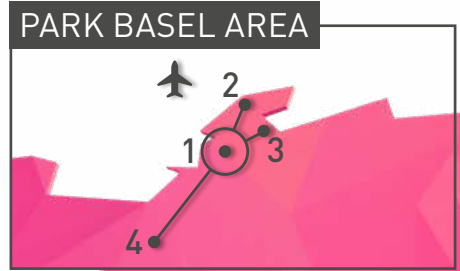

The Innovation Park is managed by Basel Area Business & Innovation, the region's innovation and investment promotion agency.

Exchange between our residents, academia and corporations promotes research activities, innovation and the transfer of knowledge.

SITE ALLSCHWIL

Focus

Biotech and medtech

6,400 m²

Facilities

On-site Community Manager, private offices, coworking areas with flex desks and fix desks, shared and private labs, meeting rooms, workshop area, lounge area, kitchen and terrace

Location

Gewerbestrasse 24, Allschwil

Our main site in Allschwil is located in one of Europe's key hubs for life sciences, biotech and healthcare, and provides labs and offices for entrepreneurs.

Just 15 minutes from the international EuroAirport Basel, we offer private and shared labs, private and shared offices and communal space suited to your everyday needs. In this thriving biotech hotspot, our next-door neighbours are Janssen (part of Johnson & Johnson), Swiss TPH, Abbott and Idorsia.

Our shared labs are serviced by our Lab Manager and are fully equipped (BSL-1, BSL-2, PCR and Chemistry), with access to cold

storage (+4, -20, -80 °C) and liquid nitrogen. Cleaning and waste handling services are provided.

BaseLaunch, one of Europe's leading biotech incubators and accelerators, is based here. This program supports entrepreneurs in launching and growing exceptional biotech startups and companies.

OPENING 2022: CAMPUS ALLSCHWIL

Focus

Biotech and medtech

6,000 m²

Facilities

On-site Community Manager, coworking areas with flex desks and fix desks, private offices, shared labs, private biology, chemistry and analytics labs, meeting rooms, cafeteria, kitchen, auditorium and innovation lounge alongside recreation, restaurant and retail offerings.

Location

Hegenheimermattweg, Allschwil

In 2022, the Switzerland Innovation Park Basel Area will take up residence at a newly developed Campus of Collaboration.

Our new home is a super-sized state-of-the-art innovation research hub designed by Basel's globally renowned architects Herzog & de Meuron. The campus is located in the up-and-coming BaseLink area in Allschwil, the meeting point for biotech and healthcare innovation.

Here, Switzerland Innovation Park Basel Area will offer an attractive working environment for researchers, entrepreneurs and globally renowned firms and institutions, creating an inspiring revolution in the way we work.

SITE NOVARTIS CAMPUS

Focus
Digital Health

500 m²

Facilities

On-site Community Manager, coworking area with flex desks and fix desks, private office, meeting rooms, workshop and innovation space, lounge area and kitchen

Location

Lichtstrasse 35, Novartis Campus, Basel

At the heart of the Novartis Campus in Basel, we offer shared workspaces, innovation spaces and meeting rooms.

Startups, entrepreneurs, intrapreneurs and innovators in the realm of digital health will find a unique space for collaboration, networking and inspiration.

Located on the Novartis Campus, – headquarters of the world’s leading pharmaceutical company and a state-of-the-art center for research, development and management – our residents receive access to unique campus facilities such

as shops, restaurants and other services.

The DayOne Accelerator, supporting digital health innovation, is based here. This program helps promising ventures build teams, skills and connections.

SITE BASEL

Focus
Digital Health

80 m²

Facilities
Coworking area with flex desks, mini lounge, meeting room and kitchen

Location
Dufourstrasse 11, Basel

At the Basel site, we offer coworking and meeting rooms in the heart of the city center.

Just seven minutes from the Basel SBB train station, our easily accessible city-center location offers residents access to a coworking area with flex desks and a meeting room, creating a unique space for collaboration, creativity and coworking.

This site is dedicated to startups, entrepreneurs, intrapreneurs and innovators in the realm of digital health.

SITE JURA

Focus

Medtech, Digital Health, Healthtech,
Industrial Transformation

1,200 m²

Facilities

On-site Community Manager, coworking areas with flex desks and fix desks, private offices, meeting rooms, workshop and innovation space, lounge area, kitchen, communal terrace

Location

Place des Sciences 2, Courroux

With its site in the canton of Jura, our Innovation Park is looking to better connect progressive startups, SMEs and high-tech companies in the region.

Focusing on digital health, healthtech and medtech, this site hosts a team with extensive knowledge in the field of industrial transformation. We also offer private and shared offices as well as communal spaces and meeting rooms.

A big additional benefit is the local health system, which allows for the testing of innovative ideas such as evaluating the efficiency of hospitals

or new mobile health applications. This site is also home to the i4Challenge, an accelerator supporting SMEs, startups and new projects in the field of Industry 4.0. Participants gain access to partners, mentors, collaborators and potential customers.

HOTSPOT FOR INNOVATORS

Digital health and healthtech

Companies at our Innovation Park combine digital technologies with health, lifestyle and society to make healthcare services more efficient and personalized. This convergence fuels a transformation from today's sickcare to genuine healthcare. Trends such as wearables and access to consumer information accelerate this development and further empower patients.

Biotech

In the area of biotech, our residents work on breakthrough treatments that offer greater benefits than just incremental improvements. Most of them are in the process of discovering, developing and testing their products with the goal of fulfilling unmet medical needs – they aim to address conditions for which there are currently no adequate cures or diagnoses.

Industrial transformation

The manufacturing industry is in the midst of a rapid transformation driven by the development of revolutionary technologies such as robotics, IoT, Big Data, AI, VR/AR and 3D printing. Our residents are active in the field of Industry 4.0, developing smart solutions and products and facilitating digitization.

Medtech

Medtech firms focus on products designed to extend our lifespans. At Switzerland Innovation Park Basel Area, these companies work on innovations, tools, materials and objects that will revolutionise diagnosis, monitoring, therapeutics and treatment, including extensive research into the use of robots and lasers in medicine and surgery.
